California OES Weekly Weather Threat Briefing

November 6, 2017
3:00PM PDT

Day 1: No significant weather or water impacts
expected at this time.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

Prepared by: Leslie Waite-Smith
801-524-7907

Key Points

11/07 – 11/14

Tuesday

- No significant weather or water impacts expected.

Wednesday-Friday

- Rain , wind and high elevation snow are expected. Impacts include possible chain controls and travel delays over the sierra passes; slick roads and localized street flooding from leaf-clogged drains; an possible ash flows around recently burned areas.
- Large scale debris flow, slope failures are NOT expected; however, even light rain rates may float ash and small debris in areas of recent burns.
- Wind speeds over ridge tops and higher terrain could gust to 50-60 mph causing visibility issues in snow and blowing snow and hazardous driving conditions.

Saturday-Sunday

- No significant weather or water impacts expected at this time.
